General description of identified and agreed projects and tasks to be completed:

- ❖ The **Experience Partner Organization** commits to the following:
 - To provide an adequate explanation of the organization's goals and mission to provide optimal context for the student's learning
 - To provide instruction and guidance on desired tasks, and feedback and evaluation on student performance
 - To provide meaningful tasks related to skills, interests and sustainability learning objectives
 - To provide appreciation and recognition of the student's contributions
 - To provide a safe and appropriate working environment
 - To make the final decision on committing to the site partnership with a student
 - To contact the Certificate Coordinator if there is any hindrance or concern in regard to the experience progress

- ❖ The **KU Sustainability Certificate Student** commits to the following:
 - To adhere to the site rules, procedures and policies, including the confidentiality of organization and client information
 - To be open to supervision with mutual feedback
 - To be reliable and communicative about availability in order to maintain time and task commitments
 - To provide appreciation and recognition to the site's contribution to your learning goals
 - To represent the University of Kansas with integrity and respect.
 - To make a conscious decision to fulfill your commitment to the time and tasks agreed to with your site
 - To contact the Certificate Coordinator if there is any hindrance or concern in regard to the experience progress

So Agreed:

❖ KU Sustainability Certificate Student: _____ Date:

❖ Experiential Learning Partner Site: _____ Date:
